

Abacus Car

The global car rental booking system

Abacus Car is the interactive car reservations system that is connected to over 50 car rental companies worldwide with the highest level of connectivity for the most major ones like Hertz and Avis. This dynamic booking tool comes with Approximate Total Pricing which provides automatic calculation for all rates, mandatory taxes, charges and fees. You can also generate an itemised calculation of the approximate total price in rate display and the itinerary. More importantly, confirmation numbers are returned from these systems before End Transaction (ET), leading to faster and easier car rental bookings.

Key Benefits

Improves information access

Abacus Car operates 24/7, so you will be able to access information anywhere, anytime, even after operating hours.

Offers choice of the lowest car rental price available

Search for the lowest car rental price with just one entry. It takes just seconds, making the inquiry process fuss-free and more time-efficient.

Simplifies booking

Completing a car rental booking with Abacus Car is effortless, thanks to its user-friendly booking masks. No more complex entries or codes, so your agency staff will not have to undergo extensive training.

Provides instant confirmation

Confirmation for car rental bookings is immediate, providing your customers with unrivalled service and faster turnaround for your agency.

Grants real-time access

Access real-time rates, availability and rules from car rental companies and quote the information confidently to your customers.

Approximate total car rental prices at your fingertips

With manual calculations of approximate pricing out of the way, you are able to easily retrieve the rates instantly off the screen and quote it to your customers over the phone. That price is what your customer will pay when the car is picked up as there is no more hidden cost.

Increases efficiency

Confirm car rental bookings together with air and hotel reservations upon request. This will help to streamline your workflow and complete your customers' travel arrangements more quickly.

Maximises resources and increases revenue

Time-saving booking processes maximise your resources for customer sales and services, and increase revenue, freeing you to perform other tasks.

Key Features

User-friendly masks

No more complex entries are necessary. The user-friendly masks and WhizMode will guide you through your bookings, greatly improving the general operational efficiency of your agency.

Negotiated corporate rates

You will now be able to view the negotiated corporate rates and make bookings directly from the system, enabling you to service your corporate customers more efficiently and confidently.

Provides real-time total price

Gain access to approximate total price, rates, information and availability on Car Shop, Car Quote and Rate Rule Detail displays. Receiving the most up-to-date fares enables you to achieve more efficient cost management.

Seamless integration

Book through Abacus Car and you'll have the hotel segment integrated to the PNR automatically. All booking information on cars and hotels can be printed in one itinerary or made available online to your client through Abacus VirtuallyThere. Your agency can now perform more tasks with less coordination.

Convenient geocoding

This extremely useful feature enables you to search for rental locations other than airports. This value-added service helps your customers gain confidence in you, leading to the fostering of a pleasant, long-term relationship.
